Landscaped Podium Garden

Podium, in architecture, means something that forms the base of a structure, such as a raised platform, or an elevated pedestal. The landscaped podium garden at RG Luxury Homes has been specifically designed to be superbly spacious (7.5 acres). Plentiful space will allow the kids to play amidst lush greenery, and in the absence of vehicles, hence, providing them with a sentiment of freedom and safety. Consequently, the parents get to roam about the podium premises with a feeling of relaxation, knowing that their kids are in the safest of hands.
